

Examination System Requirements

Construct an automated system that can perform online exams and build SQL database for such system.

Requirements:

- ◆ ERD
- ◆ Desktop Application
- ◆ Database Dictionary
- ◆ Stored procedures
 - SELECT ,Insert update and delete in any table
 - Exam generation
 - Exam Answers
 - Exam Correction

DB will help ITI staff to see the following

Reports:

- ◆ Report that returns the students information according to Department No parameter.
- ◆ Report that takes the student ID and returns the grades of the student in all courses. %
- ◆ Report that takes the instructor ID and returns the name of the courses that he teaches and the number of student per course.

- ◆ Report that takes course ID and returns its topics
- ◆ Report that takes exam number and returns the Questions in it and choices [freeform report]
- ◆ Report that takes exam number and the student ID then returns the Questions in this exam with the student answers.

Hints:

Use stored procedures to return data for each Report.

Use Crystal Report or Report Builder for report design.
